**JUSTIFICATION & APPROVAL (J&A)  
TO PROCURE USING OTHER THAN FULL AND OPEN COMPETITION  
(SOLE SOURCE)**

**1. IDENTIFICATION OF AGENCY AND CONTRACTING ACTIVITY**

This requirement is in support of Commander Fleet Forces Command (CFFC) for husbanding services throughout the country of Panama. The contracting activity is the Fleet Logistics Center, Norfolk, Virginia (FLCN).

**2. NATURE/DESCRIPTION OF ACTION/CONTRACT TYPE**

This is a non-competitive action to increase the ceiling of contract N00189-10-D-0054 with Multinational Logistic Services LTD. Contract N00189-10-D-0054 is an Indefinite Delivery Indefinite Quantity (IDIQ) type contract with firm fixed pricing provisions. The period of performance of the contract is a base year plus four one-year option periods. The total contract value at time of award was \$7,826,723.64 and the current contract value is \$24,326,723.64. At present, the current contract is in its second option year, which will expire on 31 August 2013.

At the time of contract award, there was a lack of granular port visit data for the country of Panama, which was used to produce the Independent Government Estimate (IGE). Additionally, no port visit data was available for the U.S. Coast Guard or Military Sealift Command, both of which have become prominent customers under this contract. As a result, an accelerated expenditure of ceiling has occurred.

The Procurement Contracting Office (PCO) is currently working on a follow-on requirement solicitation. However, award is not anticipated until the end of August, 2013. This ceiling increase of \$3.5 million is required to fulfill ceiling which will otherwise be exceeded for the period 20 June 2013 to 31 August 2013.

**3. DESCRIPTION OF REQUIRED SERVICES**

This requirement is for husbanding services supporting U.S. Naval Forces operating throughout the country of Panama. Under this contract the husbanding contractor provides in scope services and supplies requested by the ships while they are in port. The total estimated dollar value of the acquisition covered by this J&A is \$3.5 million. This dollar amount is based on current year spending and Fleet operation forecasts.

**4. IDENTIFICATION OF STATUTORY AUTHORITY**

This ceiling increase will be pursuant to 10 USC 2304(c)(1) only a limited number of responsible sources and no other supplies or services will satisfy agency requirement, as implemented by Section 6.302-1 of the Federal Acquisition Regulation (FAR).

## 5. RATIONALE SUPPORTING USE OF AUTHORITY CITED ABOVE

Husbanding support is critical to the Navy's global war-fighting mission. Husbanding contracts provide crew sustaining support to ships pulling into port. Some of the most vital services provided under this contract include the removal of CHT (Waste Water/Sewage), the replenishing of potable water and the ability to increase security measures at the port for the protection of U.S. Navy personnel and equipment. Not having a contract vehicle to provide support for port visits in Panama presents substantial risk to the Navy's global readiness capability. Often, due to exercises and other unforeseen operational requirements, the timing of the requirements for husbanding services cannot be predicted, which makes it imperative that husbanding services be available under contract at all times. MLS is best positioned to continue providing these services under the current contract during the period required to compete and award a follow-on contract in August 2013.

Milestone	Planned Date	Actual Date
Issue Synopsis		8 May 2013
Issue RFQ		30 May 2013
Close RFQ		1 Jul 2013
Discussions		24 Jul 2013
Final Proposal Revisions Due		12 Aug 2013
Final Evaluations - Completed		26 Aug 2013
Contract Award		31 Aug 2013

This increase in ceiling will provide essential contract support for port visits throughout the country of Panama. Failure to increase the ceiling would lead to a break in services, presenting unacceptable operational risk because of delays in fulfilling the requirement through other methods.

6. **FEDBIZOPPS Announcement/Potential Sources.** Notice of the contract ceiling increase will be posted to NECO.

7. **Determination of Fair and Reasonable Cost.** A determination of fair and reasonableness for pricing shall be made by the Contracting Officer/Ordering Officer at the time each individual task order is placed.

8. **Other Supporting Facts.** Not applicable.

9. **Actions Taken to Remove Barriers to Competition.** The increased ceiling is intended to ensure the continuation of mission essential services until the follow-on contract is competed to the fullest extent possible and awarded. Every effort to date has been made to maintain ordering integrity pursuant to FAR and ensure the contract and orders that stem from it are conducted fairly and openly with no apparent conflict of interest and in the best interest of the Government. The estimated award date is late August 2013.

10. **Total Estimated Dollar Value of the Acquisition Covered by this J&A.** The required increase of \$3.5 million is based upon current year spending and Fleet operation forecasts.

11. **Reference to the Approved Acquisition Strategy (MOPAS).** The Acquisition Strategy was approved on 22 April 2010.

12. **Documentation for Spare/Repair Parts Acquisition.** Not applicable.

13. **Preparer's Identification.** The point of contact at FLC Norfolk is Reagan Criddle, phone (757) 443-1456, e-mail: reagan.criddle@navy.mil.
